Fee Increase

Effective 1 September 2018 there will be a small increase to some of our fees.

We continue to strive for high quality care and the accessibility of our services. In order to maintain the quality of these services we need to pass on some of the increased costs that we have absorbed. The increase is required to protect quality and enhance the patient experience. A copy of the new fee schedule FOR ENROLLED PATIENTS' FEES is shown below.

For those patients over 65 years old, there will be no increase of fees.

There will be no change to ACC Injury consultation fees.
